

GEOPASTURE

Maamuzi sahihi, ushirikiano wa kudumu

THE PROBLEM

Resource conflicts between Kenyan pastoralists and agriculturalists frequently arise due to inadequate real-time information and also miscommunication between them which a result hinders sustainable management and coexistence.

THE SOLUTION

With Geopasture ,you get real-time updates on pasture availability, weather forecasts, and even track your animals' location – all to avoid conflicts and ensure a thriving future for both your herds and crops.
